Here We Are Again!

Welcome to the 1975 Rainham Spectacular. We have two main attractions for you this year:—

The Royal Artillery Motor Cycles (by kind permission of the Director Royal Artillery), and the Boughton Aluph Sky—Diving Display Team. More about these and some of our other attractions in the following pages.

While the Spectacular is organised to give everybody the best day's entertainment available in Rainham, it is also important that it raises a lot of money for the Community Association. The old school finally closes in the autumn, giving us a very real target date for the completion of the conversion of Station Oasts. Every £1 raised or given today helps to bring the opening day nearer.

The Spectacular Committee would like to take this opportunity to thank the many people who have contributed time, goods and money to help make this Spectacular a success. In particular we would commend to you the many local trades who have generously taken advertising space and given raffle prizes.

ROYAL ARTILLERY MOTOR CYCLES

A highlight in military and civilian spectacles is the performance by the Royal Artillery Motor Cycles. The Team, originally formed in 1955, has thrilled countless thousands, both in this country and abroad, with their daredevil display.

The non stop show starts with sixteen riders in a demonstration of highly skilled formation riding. Individual stunts follow and, for a little light relief, these include some amusing clowning. The finale is probably the fastest display of team riding in the world. Twelve of the Team's most experienced members ride at breakneck speeds, crossing and recrossing the arena in two and then four separate teams. Team members are all serving soldiers in the Royal Artillery who have volunteered for a tour of duty with the Royal Artillery Motor Cycles. They are drawn from the great variety of Gunner Regiments including Parachute, Commando and Missile Regiments, Nuclear Artillery and Field Gun Regiments. All are highly trained as Surveyors, Heavy Goods Vehicle Drivers or Signallers or have gained other qualifications in the many Royal Artillery trades. They return to these trades in their Regiments after their tour with the Team.

ADVANCE PROGRAMMES

Further copies of this programme are available up to Friday 20th June from Martins, Parkwood; The Newsagency, Lonsdale Drive; Trembeths, High Street; Sophisticats, Chris's Fish Shop and Annes Wool Shop, Station Road; Bredhurst Post Office.

BOUGHTON ALUPH SKY—DIVING DISPLAY TEAM

Each member of the team is either a full Instructor or 'D' Licence Holder (over 200 Jumps) of the British Parachute Association. Some of its members have *between 600 and 900 Jumps* to their credit. The team leader is Mr. Lawrie St. John, an Instructor of the British Parachute Club based at Headcorn Airfield. In the *6 years* in which the team has been giving displays, he states that he has never missed an arena.

Jumping from up to 7,500 feet the three parachutists will use parachutes easily seen because of their multi-coloured canopies and their descent will also be marked by the use of very pistols and smoke bombs.

The 200 Club

2 prizes of £500 and 20 prizes of £20 divided between only 200 members every year. If you would like to join this club for only £1.00 a month please contact Mr. Gordon Clarke, 55 Bettlescombe Road, Rainham. Medway 30370, or pick up an entry form from the Raffle stand at the Spectacular.

Station Oast Houses

"Is that the big old building near the station with a notice 'This will be your new Community and Youth Centre'?"

"Yes, that's right."

"And is it ever going to open, if so, when?"

"Of course, but when is not quite so easy to answer. Put it this way, we've been told that we will have to give up our present Centre (the old school at the top of Station Road) by the 29th September."

"Will the new Centre be open before the old one closes then?"

"Why not, provided of course that all the extra help promised after our Open Days, materialises, to give a hand to the band of volunteers(?) who've been slaving away down there for months trying to get the place ready as quickly, but as economically, as possible."

"When it opens, what's it going to provide?"

"Hopefully, give everyone in the Rainham/Wigmore area somewhere they can go, (irrespective of age or interests), to enjoy themselves, chat to their friends, take part in activities, or whatever! It will be *your* Centre, *you* tell us what you would like; if it's possible for us to cater for it, then we will! Don't forget though, that big as it is, it will not be big enough for everything, so some balance will have to be maintained between the various demands, in everyone's interests, whether groups, individuals, or societies; and, of course, it must be financially self-supporting."

"So is there anything I can do to help?"

"Yes, two things!"

1. Come and give us some help *now* — every pair of hands counts at this stage.
2. When it opens — USE IT!!

Dave Easton

(Corner of Holding Street)

Station Oast Houses — What's the Cost?

About £75,000 in total, yes, that's right! £75,000.

Mind you, it wouldn't have been, but for inflation. In September 1971 the estimated cost was £40,000 approximately. Since then, no basic changes in the original concept have taken place, like everyone else, we have just been devastatingly hit by spiralling costs, just to carry out the same amount of work.

So where does the cash come from?

Well, the Department of Education and Science and the Kent Education Committee between them, are providing grants of £20,000, the Gillingham Borough Council have given £2,500, and the rest (£52,500) is down to us. The Borough Council did kindly provide us with a £10,000 mortgage loan to help us buy the site and building, and a brewery has loaned us a similar sum. However loans have to be repaid, and these two cost us over £2,000 per year between them, to service.

So how do we raise our share?

Quite simply, by sheer hard work at fund raising, through the '200 Club' (more members please), the Spectacular, Car competitions, various jumble sales etc., and the basic income from our Membership Fees, and those of our younger members in the Disco Club. We also let our old school Centre, to outside bodies, whenever possible.

When it comes to the projected operating costs of the new Centre, we estimate these at about £10,500 per annum. To open up the main building as a first step, we've got to raise about £18,000 this year. So far, since the project began, we have spent almost £42,000, and have another big bill to come, for renewing the roofs to the Oasts.

Does anyone know any fairy godmothers, or where there is a spare 'crook of gold'?

D.W.Easton

Station Oast Houses—Progress Report

The whole of the main building, and the adjacent single-storey building, have been re-roofed, and all external woodwork has been renewed.

A whole floor has been taken out, to provide a main hall 75ft. long, 25ft. wide, and 16ft. high, and a colossal R.S.J. girder has been put in to strengthen the roof.

Fire-resistant staircases have been built, and many fire-resisting walls have been put in — after all, public safety has to be of prime concern! In addition, balconies have been constructed at each end of the main hall, and decorations on parts of the building have been started.

Still to be done are:— putting in the services, (gas, heating, plumbing, fire equipment, electrics etc.), fire-proofing of ceilings, floors, furnishings, decorations throughout the whole of the building, conversions of the Oasts themselves, conversion of the inside of the single-storey building, and the laying-out of the service road and car parking area.

Now you can see why it's all such a long job, and why we always appreciate extra help. Any offers please?

Monumental Masonry Carried Out by Our Own Expert Staff

Bring Your Old Pennies

Peter Snell will be bringing a travelling amusement museum, consisting of various old penny slot machines from days gone by.

Most have not been converted to decimal coinage, this keeps an air of nostalgia.

Bring your old pennies, or you can purchase them from the kiosk to play these relics from the past.

One or two machines have been set aside for free play so that when the youngsters have run out of money and have nothing else to do they will be able to entertain themselves.
